About Us

- Builder/Remodeler for 12 Years
- Specializing in Residential/Light Commercial
 - Energy Efficiency
 - Affordability
 - Comfort
 - Durability
 - Healthier
 - Sustainable

Mission Statement

- To Educate individuals and organizations about energy efficient building methods and technologies
- To maximize energy efficiency in residential and commercial buildings while staying within budgetary constraints
- To minimize our impact on the environment as an organization and individually

Why HP with Energy Star

- Recession Proof Business
- Provide Indoor Work during Winter
- Even Out Work Schedule and Cash Flow During Year
- Natural Fit with Current Business Model

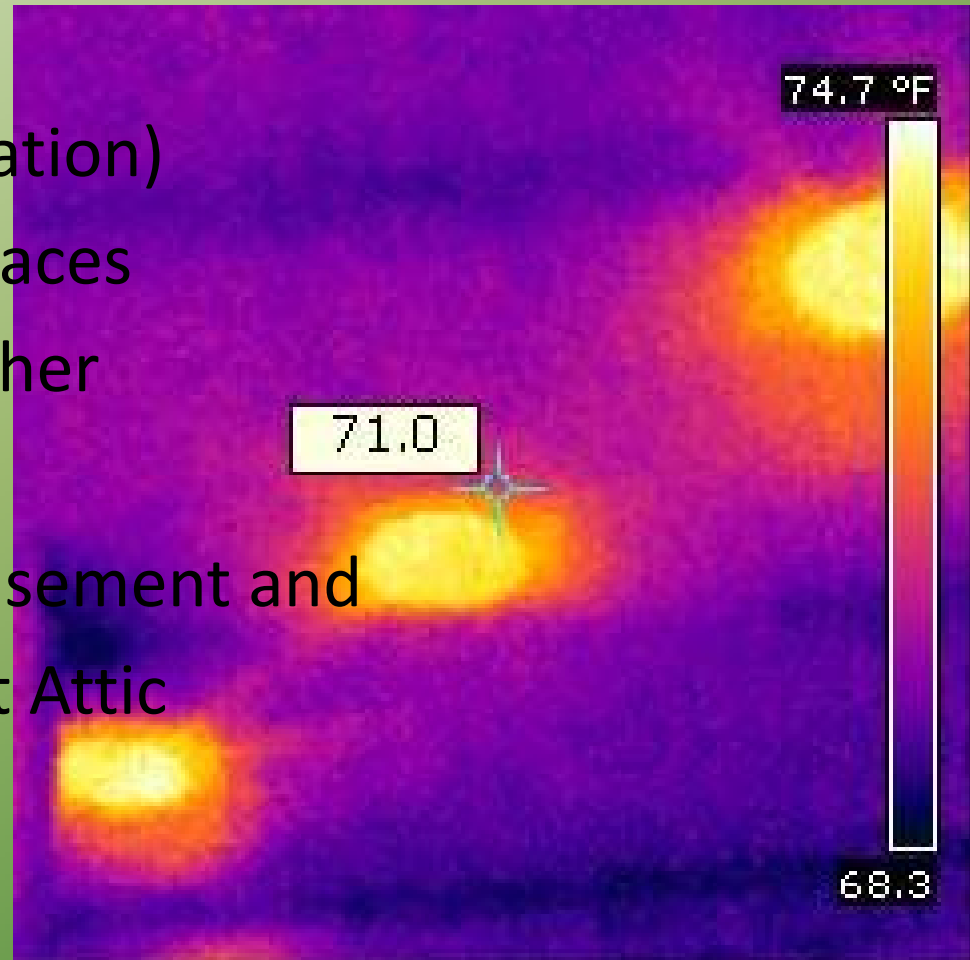

Dentist Office Building

Complaints:

- High Utility Bills
- Lack of Comfort
- 3 Furnaces and 3 AC Units per 2400-3200 Sq Ft
- Furnaces and AC Units Running at Same Time in January and -10 Degrees Outside

Findings in Dentist Office

- Can Lights (Holes)
- Trusses (Lack of Insulation)
- 3 AC units and 3 Furnaces
- 85% Connected to Other
Side of Building
- Cold Air Coming in Basement and
Hot Air Going Out Attic

Dentist Office Solution

- Air Sealed Entire Office
- Added Additional R20 Cellulose to Attic
- Future-Reduce Heat System and Remove Two AC and Furnace Units
- Complete Job Size Over \$10,000

Single Family Ranch

- Complaint-Roof Leaking
- Finding-Leaky Return Air Duct Uninsulated in Attic
- Repairs-Air Sealed Attic, Sealed and Insulated Duct Work, Added Bathroom Fan
- Size of Job Over \$4,000

1940's Office Building

- Complaints-High Utility Bills, Comfort Issues
- Solution
 - Removed Furnace and Reduced for 1 Furnace
 - Removed False Ceiling and Fiberglass Insulation and Insulated Roof Cavity
 - Insulation and Drywall on Interior
- Success
 - No AC Needed
 - No Carbon Monoxide
 - Comfortable
- Job Size over \$30,000

Moral of The Story

- New Markets
- Easy Penetration
- National Branding
- Consistent Work Throughout Year
- Value Job Additions to Any Contractor
- Recession Proof
- Business Increases with Higher Energy Costs
